Introducing...

The Cats of Baseball™ collection, featuring the cutest cat characters ever to play in America's Favorite Pastime! These individually hand-painted sculptures are sure to capture the imagination of every "kid," big or small. Place them in their designated playing positions, and you can practically hear the familiar yowl, "Let's Play Ball!"

The Barncats face the Alleycats in an all-out cat fight. Chopper of the Alleycats, a five-time batting champ for the WildCat League, is ready at the plate for Spike of the Barncats, famous for his wily, curveball pitch. These tough cats are serious players, ready to pounce! Flash stretches with anticipation at first base. Tiger, the catcher, waits motionless, glove in hand. Howler, a great, defensive fielder with a strong paw, anticipates the umpire's resounding call when he nails the next fly ball: "YyyyOWT!"

Each sculpture stands approximately 5½" to 7" and includes collectible trading cards with original art, background stories and playing statistics.
